

AVANCE L5

Proven and reliable productive Wi-Fi

Connect to email, streaming services, cloud productivity apps, live video calls and more on business aviation's most installed connectivity solution to date.

FEATURES

Fast inflight internet – supports streaming

- Streaming video and audio, VPN support, web browsing, email with large attachments and more
- Dual-directional antennas (standard), or Gogo 5G provision configuration (optional) with multi-band (MB13) antennas
- Seamless coverage in the contiguous U.S., plus parts of Canada and Alaska

Smart router for an integrated, automated cabin experience

- Advanced 802.11ac dual-band router (5GHz & 2.4GHz) maximizes bandwidth and optimizes in-cabin Wi-Fi performance
- Dynamic, multi-bearer data and voice management

Terrestrial modem

- Complimentary ground connectivity in select countries

Gogo Vision inflight maps, entertainment, and information

- 3D moving map, destination weather
- Unlimited licensed movies and TV (subscription required)
- eMagazines (subscription required), news clips (subscription required)
- Automatic content updates

Gogo Skyline for in-cabin communications (voice plan required)

- Reliably make calls using your own phone and contacts in the air, and via any Gogo network
- Serves as a handset for Iridium satellite calls, Gogo Voice over ATG calls, or calls within the cabin

Path to Gogo Galileo - Global LEO broadband connectivity

- Global low-latency satellite coverage
- Greater speed and capacity
- Streamlined installation: AVANCE L5 can power Gogo Galileo via an easy addition of one antenna terminal
- 1 AVANCE L5 system + 1 antenna (HDX or FDX) = Global coverage

Award-winning service and support

- Use AVANCE over-the-air (OTA) functionality to remotely update your AVANCE system software, manage your MIX configuration, monitor the health of your LRU, and update your IFE content
- Gogo DASH tools provide visibility into the health of Gogo systems and control to customize your connectivity experience
- 24/7/365 monitoring, global support, and remote service activations

SPECIFICATIONS

Aviation grade

- Built to DO-178C Design Assurance Level D
- Installs inside or outside the pressure vessel

Dimensions and weight

- MCU size: 5MCU
- LRU dimensions: 6.34" W x 7.64" H x 13.24" D
- LRU with mounting tray dimensions: 6.55" W x 9.99" H x 16.62" D
- LRU weight: 18 LBS
- Mounting tray weight (with fan): 4.2 LBS
- Two (2) dual-directional (DDA) antennas OR Two (2) multi-band (MB13) antennas
- DDA Antenna dimensions per antenna: 6.2" W x 12.6" L x 7.6" H
- Weight per antenna: 4.0 LBS MAX
- MB13 Antenna dimensions per antenna: 4.52" W x 15.07" L x 7.79" H
- Weight per antenna: 6.0 LBS

Electrical characteristics

- Voltage Range: 20.5 to 32.2 VDC
- Maximum Power: 303W at 28V input with heaters on
